Forecast For East of England
Issued by Met Office Exeter
at 0400 on Saturday 09 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cold, dry, with some sunny spells developing.

Today:
Frosty start, with a mix of low cloud and patchy freezing fog, also a risk of ice on untreated surfaces, Then sunny spells will gradually develop for many areas, although some low cloud and fog is likely to persist. Cold. Maximum temperature 4 deg C (39 deg F).

Tonight:
With the largely clear skies, and light winds, temperatures will quickly fall with a widespread sharp frost developing, patchy freezing fog, and a risk of ice on untreated surfaces. Minimum temperature -5 deg C (23 deg F).

Sunday:
Patchy freezing fog will gradually clear from most places, perhaps lingering across southern areas, as cloud increases through the day. Staying mainly dry and cold. Maximum temperature 5 deg C (41 deg F).

Outlook for Monday to Wednesday:
Monday largely cloudy and becoming breezy, with outbreaks of rain arriving, especially across the Peak District. Tuesday, mainly dry, bright and cold before rain arrives during Wednesday. Becoming noticeably milder.
